## PROFESSIONAL SUMMARY

Full-stack software developer and final-year B.Tech CSE student (2026) with proven experience building and shipping AI-powered web applications. Created **Orbit**, a multi-feature study platform serving real users — combining PDF AI, flashcard generation, task planning, and an AI chatbot in a single cohesive product. Skilled across the full development stack: Python, React, Next.js, Supabase, and REST APIs. Holds two Microsoft certifications in AI and Data Analytics. Looking for a Software Developer role to build impactful, production-grade software.

## TECHNICAL SKILLS

|                |                                                        |
|----------------|--------------------------------------------------------|
| Languages      | Python, C, C++, SQL, JavaScript                        |
| Frontend       | React.js, Next.js, HTML5, CSS3, Tailwind CSS           |
| Backend & APIs | FastAPI, REST APIs, Node.js, Streamlit                 |
| Databases      | MySQL, MongoDB, PostgreSQL, Supabase                   |
| DevOps & Tools | Git, GitHub, Docker, Linux, Vercel                     |
| AI / ML        | TensorFlow, Keras, Scikit-Learn, OpenCV, NumPy, Pandas |
| Cloud & BI     | Azure AI Services (AI-900), Microsoft Power BI         |
| Concepts       | DSA, OOP, System Design, REST Architecture, Agile, MVC |

## PROJECTS

**Orbit — AI-First Study Platform** [[github.com/KrishnaKV2004](https://github.com/KrishnaKV2004)] Python · React · Next.js · FastAPI · MongoDB · Supabase · Docker  
[Full-Stack](#) · [Generative AI](#) · [Product](#)

Architected and shipped a **full-stack AI study platform** end-to-end — handling PDF summarization, auto-generated flashcards, viva questions, and quizzes from any uploaded document using LLM APIs.  
Built a **Document Vault** (Supabase Storage) for secure PDF management and a **Notes** module with rich-text editing and full-text search.  
Developed a **Task Planner** with deadline tracking, priority flags, and progress dashboards — enabling students to manage complete study schedules within one app.  
Integrated a real-time **AI Study Assistant** chatbot grounding LLM responses in uploaded document context for accurate, curriculum-relevant answers.  
Designed a **Next.js + React** frontend with Tailwind CSS and a FastAPI backend; deployed on Vercel with Supabase for auth and persistent storage.

**Human-Computer Interaction System** [[github.com/KrishnaKV2004](https://github.com/KrishnaKV2004)] Python · MediaPipe · OpenCV · ctypes  
[Computer Vision](#) · [Systems](#)

Built a real-time **gesture-controlled mouse** enabling full PC interaction — single click, double click, drag — via webcam hand-tracking with MediaPipe and OpenCV.  
Used **ctypes** to emit native OS mouse events at the hardware level; optimized video pipeline to sustain **30+ FPS** on standard hardware as a practical accessibility tool.

**Brain Tumor Detection Web App** [[github.com/KrishnaKV2004](https://github.com/KrishnaKV2004)] Python · TensorFlow · Keras · Streamlit  
[Deep Learning](#) · [Deployment](#)

Trained a **CNN** on brain MRI scans across 4 tumor classes, achieving **~96% validation accuracy** with Adam optimizer and dropout regularization.  
Deployed as a live **Streamlit web app** — full pipeline from image upload and preprocessing to real-time classification output, accessible without any local setup.

## EDUCATION

|                                                                                                         |                                     |
|---------------------------------------------------------------------------------------------------------|-------------------------------------|
| <b>Graphic Era Deemed to be University</b><br>B.Tech in Computer Science & Engineering — CGPA: 8.1 / 10 | Uttarakhand, India<br>2022 – 2026   |
| <b>Asha Modern International School</b><br>Class XII: 74%   Class X: 86%                                | Uttar Pradesh, India<br>2020 / 2018 |

## CERTIFICATIONS

**Microsoft Certified: Power BI Data Analyst Associate** — Power Query, DAX, data modeling, and interactive dashboard design.  
**Microsoft Certified: Azure AI Fundamentals (AI-900)** — Azure ML, Cognitive Services, computer vision, NLP, and responsible AI.
